CONTENTS PAGE

Lecture notes 2
Cornell layout: key terms, notes and a summary

Diagram study 3
A frame to draw in, numbered labels and functions

Lab report 4
Aim, materials, method, a graph and a data table

Species profile 5
Specimen sketch, classification and observations

Genetics 6
Punnett squares for one and two traits, a pedigree

Revision 7
A topic checklist and cards to test yourself

Tap a tab or a line of the contents to turn to it.
